Study Overview

Background

Hoop Group was asked to conduct the 3rd annual IAB Australian mobile landscape study. The study was first undertaken in 2013, and continued in 2014.

Methodology

The study was conducted through a 15-minute online survey and was undertaken by 350 people.

The survey was sent out to representatives of the advertising industry utilising databases from the IAB and Hoop Group.

All respondents were screened for their position in the industry and their involvement and knowledge of mobile advertising.

What Has Happened in the Last 12 months?

Revenue Growth

Consumer Growth

Mobile Ad Revenue up 118% in CY14

From IAB/PWC Online Advertising Expenditure Report Dec 14

Mobile More than 50% of Digital Time

Phone Browsing Time %

Phone Application Time %

Market measurement & understanding of consumer habits has increased significantly in last 12 months

Mobile Advertising Issues & Values

Issues of Using Mobile Advertising

Measurement & advertisers understanding of the medium were the biggest issues facing the industry in 2015.

What are the three biggest issues stopping mobile from being a larger proportion of digital ad volume?

iab.
australia

2015 Mobile Advertising
Industry Survey

Issues of Using Mobile Video vs. Video

Measurement and understanding was also the top issue for mobile video, however viewability and tech issues were seen at the same level. There was also more evidence needed around effectiveness.

And what are the three biggest issues stopping mobile video from being a larger proportion of digital mobile ad volume?

Compelling Characteristics of Mobile Advertising

Location and Immediacy are the biggest benefits of mobiles. Buyers & suppliers list were a little different to this question.

How compelling do you find the following characteristics of mobile advertising as benefits of the medium?

iab.
australia

2015 Mobile Advertising
Industry Survey

Importance of Multi-Screen Advertising

Multi screen advertising was seen as important but had dropped a little since 2014.

How important is multi-screen advertising (e.g., TV + digital screens, etc.) in the campaigns and strategies you're involved with?

iab.
australia

2015 Mobile Advertising
Industry Survey

Executive Summary

- The market is expecting a 26% increase in mobile spend over the next 12 months.
- 41% see mobile as a significant part of their marketing & expect to use in half of their campaigns.
- 93% of the 'buyer' side satisfied with their mobile results.
- Programmatic buying increasing - 66% used with a further 23% expecting to use (next 12 mths).
- Buyers are expecting to use mobile video in 43% of their mobile campaigns (next 12 mths).
- Barriers to mobile spend remain similar to last year – measurement, client understanding, effectiveness 'proof' and the creative limitations are highest. Viewability a concern for mobile video buyers.
